Summary

Hey, I'm Rugved Junghare, a second-year engineering student with a tech-savvy heart. I'm passionate about all things tech and eager to connect with fellow enthusiasts. Let's chat tech and build something amazing! #TechPassion #EngineeringStudent

Professional Experience

Varpas Concepts
January 2024 – Present

Freelance Data Annotator

- Utilized annotation software to identify and label specific data points according to project guidelines and standards
- Actively contributed to the improvement of data annotation processes and workflows.

VIT Catalyst
August 2023 – Present

Education Mentor

- Collaborated with teachers and other education professionals to create a supportive and inclusive learning environment for students
- Provided academic and emotional support to students, including mentoring and counselling, to promote overall wellbeing and success
- Acted as a positive role model for students, promoting self-confidence, resilience, and a passion for learning.

Education

BTech in Information Technology
November 2022 - Present

Vishwakarma Institute of Technology, Pune at VISHWAKARMA INSTITUTE OF TECHNOLOGY VIT, Upper Indira Nagar, Bibwewadi, Pune, Maharashtra 411037

Key Skills

- **Java**
- **HTML5**
- **CSS**
- **JavaScript**
- **C/C++**
- **DSA**

Certifications

Fundamentals of Deep Learning – NVIDIA
December 2023

Project

Attendance management system

Project link : https://github.com/rugved0102/Attendence-Management-System

Developed a comprehensive Student Attendance System in C as a personal project. Implemented features such as user authentication, binary search tree data organization, and automated warning letter generation for low attendance. This project showcases my proficiency in C programming, algorithmic design, and user-centric development, providing a robust tool for efficient attendance monitoring and management.
